

## **TREE PROTECTION AREA KEEP OUT!!**

Trees within the fenced areas are subject to Planning Control (Tree Preservation Order or Planning Conditions). A breach of a Tree Preservation Order may result in planning enforcement action and or criminal prosecution.

The Tree Protective Fencing is part of the approved plans for this development and must not be moved, removed or altered.

This is a restricted area which must not be used for any activity associated with the development e.g. parking, materials / soil store, concrete mixing. If in doubt – keep out.
